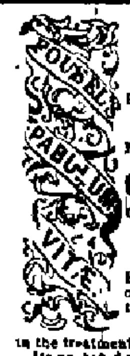
HIGHLY IMPORTANT DISCOVERY.



Fousel's Pabulum Vitæ

Has now gained its position before the public as
THE ONLY REMEDY
yet discovered for the speedy relief and permanent cure of

CONSUMPTION,

Coughs, Colds, Hoarseness, Bronchitis, and all other Pulmonary Complaints

The discovery of an eminent French Physician after many years of study and observation, it continually meets with the most
ASTONISHING SUCCESS
in the treatment of the above complaints.
Its unabated popularity, numerous certificates of remarkable cures, the recommendation of some of our most eminent physicians, and the analysis of Dr A A Hayes, the State Assayer, all give convincing proofs of

THE UNRIVALLED VIRTUES
And Unqualified Superiority

of this preparation to any other remedy now extant, and are constantly contributing to give it a wider and more enviable reputation From its volatile nature, it affords vapors freely, and consequently is DIRECT IN ITS ACTION UPON THE LUNGS AND AIR PASSAGES
The discredit which has been thrown upon all preparations not prescribed by regular physicians, by reason of the recklessness with which worthless and injurious compounds have been imposed upon the public, will tend to deter many from availing themselves of the benefits of this preparation, being it, however, assures the public in all sincerity, that this medicine is not only perfectly safe, and free from all other deleterious ingredients, but guarantees that it will effect all that he represents, not having heard of a single case where it has failed to give satisfaction.
It is warranted to cure
Consumption by using One to Six Bottles,
Bronchitis by using One to Three Bottles,
Coughs by using less than One Bottle,
Colds by using it Two to six Days,
Bleeding of the Lungs by using less than One Bottle,
Hoarseness by using less than One Bottle,
Soreness of the Chest by using less that One Bottle.
Price $3 per bottle, accompanied by a Treatise

THE HATCH HOUSE,

Main Street, Bangor, Maine.

This House has been thoroughly repaired, refitted, and refurnished throughout with New Carpets, Furniture, Beds and Bedding, and is now open for the reception of company, under the charge of the subscriber.
It is a large, commodious, and well furnished House, situated on Main Street, near the centre of the city, and within a short distance of the Steamboat Wharves and the Depot of the P & K. Railroad, to and from which Coaches are always in readiness to convey passengers
Its numerous advantages to strangers, and particularly to those visiting the city on business or for pleasure, renders it one of the most desirable Houses in the city.
Connected with the House is a large and commodious Stable, in charge of competent and faithful hostlers.
By strict personal attention to the comfort of his guests, the proprietor hopes to receive a liberal share of patronage.

He begs leave to refer those unacquainted with him to the following testimonials :—
From the Hon. Charles Mason, Commissioner of Patents
U. S. PATENT OFFICE, Feb. 23, 1855.
I take great pleasure in stating that during the time I have been acting as Commissioner of Patents Samuel Cooper, Esq., of Boston, has been engaged as Solicitor, and has been in that capacity in constant correspondence and intercourse with the Office; he has evinced a thorough acquaintance with the Patent Law, and with the rules and practice of the office, a close attention to the interests of his clients, and a marked candor and courtesy that has rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with the office with whom I am acquainted
CHARLES MASON, Commissioner.
From the Examiners of the Patent Office.
The undersigned, Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, late a principal Examiner in this office, and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.

MAINE STATE

AGRICULTURAL SOCIETY.

THE objects of the Society are to bring together the best specimens of Stock, and productions of Household Manufactures, and labor saving Machines of all descriptions, and hereby stimulate a laudable emulation to excel in every department of Industry. We see no way of bringing about these desirable results so satisfactorily as by an exhibition, where the public may freely examine and pass upon the merits of stock or articles exhibited We believe such Exhibitions are the medium best calculated to bring to notice the popular merits of farm stock and productions and the mechanic finds his machine, carriage, or fabric, much better understood than by any other system of advertising. We desire to make the Exhibition of 1858 surpass all former ones
We invite all to exhibit their stock, productions, fabrics and machinery of any kind The Rotunda of the State House and adjacent Halls have been granted to the Society for its use, and a large building is now being erected for the exhibition of heavy articles, farming utensils, &c
Liberal arrangements have been made for the transportation of stock and articles for exhibition, either one or both ways, free, on presentation of the Secretary's certificate that such stock or articles have been on exhibition, and not changed owners. Exhibitors are requested to give two weeks' notice to the Superintendents of the Roads over which they may design to pass—of the amount of stock and articles, and the Station at which it is to be taken upon the Road, so that suitable provision may be made for transportation The Roads that will convey Stock, &c, free are as follows —Portland, Saco, and Portsmouth, Kennebec and Portland, Somerset and Kennebec Railroads The Roads that will convey Stock, &c , at half price, are as follows —Penobscot and Kennebec Atlantic and St Lawrence, York and Cumberland Railroads
The Roads that offer to convey Stock free will run a Special Train on Monday and Saturday of the week of the Exhibition—other days, by regular trains, at half price Articles may be sent any time during the week previous at half price (All stock at the owner's risk)
The Show and Fair will be holden at Augusta, on the 21st, 22d, 23d and 24th of September 1858 Contributors who intend exhibiting articles in the Halls are requested to make application for space to the Superintendent, Capt CHARLES SIMMONS, as early as one week previous to the time of Exhibition, so that the least delay possible may be had in their arrangement
Our former Exhibitions have been of a high order, and productive of much good and still hoping that a general interest towards our Society and its efforts may be felt throughout the State

California Steamers,

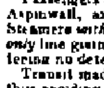
Carrying the United States Mail.

5th and 20th of each month.

Through Tickets, including transit of the Isthmus, via Panama R R.

CAUTION TO THE PUBLIC!

On account of the numerous frauds and impositions on travelers, those bound to California are cautioned to buy Tickets at the only authorized Agencies of the United States Mail Line as below



By order of the Post-master General, the United States Mail Steamers will hereafter be despatched from New York to Aspinwall, on the 5th and 20th of each month
Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers without any extra expense This is the only line giving entire Through Tickets, guaranteeing no detention on the Isthmus
Transit made in four hours entirely by daylight thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation, over rocks and shoals

MECHANICS, INVENTORS, MANUFACTURERS AND FARMERS

THE SCIENTIFIC AMERICAN has now reached its Fourteenth Year and will enter upon a New Volume on the 11th of September It is the only weekly publication of the kind now issued in this country, and it has a very extensive circulation in all the States of the Union It is not as some might suppose from its title, a dry, abstruse work on technical science, on the contrary, it so deals with the great events going on in the scientific, mechanical, and industrial worlds as to please and instruct every one If the Mechanic or Artisan wishes to know the best machine in use, or how to make any substance employed in his business—if the Housewife wishes to get a recipe for making a good color, &c —if the Inventor wishes to know what is going on in the way of improvements—if the Manufacturer wishes to keep posted with the times, and to employ the best facilities in his business—if the Man of Leisure and Study wishes to keep himself familiar with the progress made in the chemical laboratory, or in the construction of telegraphs, steamships, railroads, reapers, mowers, and a thousand other appliances both of peace and war—all these desiderata can be found in the SCIENTIFIC AMERICAN, and not elsewhere. They are here presented in a reliable and interesting form, adapted to the comprehension of minds unlearned in the higher branches of science and art
TERMS—One Copy, One year, $2 00, One Copy, Six Months $1, Five Copies, Six Months, $4, Ten Copies, Six Months, $8. Ten Copies, Twelve months, $15, Fifteen Copies, 12 Months $22, Twenty Copies, Twelve Months, $28, in advance.
Specimen copies sent gratuitously for inspection. Southern and Western money, or Postage Stamps, taken for subscriptions Letters should be directed to MUNN & CO.,

LINCOLN'S

WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

Keep your Feet dry, and you will seldom need a Physician

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried it soon becomes hard, stiff and cracks, but when it is water proof this is remedied By the application of this preservative, it remains soft, and entirely impervious to water
After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions and found it easy to make it water proof, but at the same time extremely injurious to the leather At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned It will not only make leather water proof until it is worn, softens the leather and it will

Positively wear twice as long.

I have now used it for three years and a large part of that time have worked in a wet Tannery, with my boots constantly in water and have not had my feet wet during that time I can therefore in all confidence, recommend it to the public as the best article in the market

State of Maine.

EXECUTIVE DEPARTMENT,
Augusta, August 18 1858

The adjourned session of the Executive Council will be held at the Council Chamber in Augusta, on *Monday*, the twentieth day of September next. Attest
NOAH SMITH, Jr., Secretary of State.

A Candidate's Letter.

The Union publishes a letter from Hon. Jas. S. Wiley, the democratic candidate for Congress in this district, in reply to certain inquiries of Mr. J. D Brown of Foxcroft. The enquiries were made to enable Mr. Wiley to get out a little "buncombe" upon the "Reciprocity Treaty," the "Coastwise Trade," and the "Repeal of the Fishing Bounties."

Of course Mr Wiley is opposed to Reciprocity. It is found to be injurious to Eastern Maine, and he must place himself in a proper position before the voters. But when he undertakes to say that it has not been and is not now favored by the democratic party, he states that which is palpably an untruth—unless he is will to say that the democratic party has not upheld and does not uphold democrats in administration. THE RECIPROCITY ARRANGEMENT WAS MADE AND RATIFIED BY A DEMOCRATIC ADMINISTRATION AND A DEMOCRATIC SENATE. The gentleman cannot get away from this disagreeable fact, however much he may *talk or write* against the arrangement himself, *now that it has been fastened upon us for ten years*, and cannot be got rid of.

Mr. Wiley, by the way, does not show himself remarkably familiar with the subject upon which he writes. He begins thus:

"The subject of the Reciprocity Treaty, passed in the year 1855, is of vital importance to the commercial interests of Eastern Maine."

The Reciprocity Treaty was signed on the 5th of June, 1854, and was not ratified until sometime afterwards.

Mr. Wiley's remark that "he should labor for a revision of the treaty if he had an opportunity," is full of sweet simplicity. It is barely possible however, that it intended to humbug the honest people of the Fifth District—for the democratic administration having *bound us to the arrangement for ten years by treaty*, it is difficult to perceive how Mr. Wiley is going to "revise" it,—even if the people should think him a better man to send to Congress than "the demagogue Washburn" (as the Union styles him.) In regard to this matter, the people know that Mr. Washburn has always opposed the Reciprocity Arrangement, and will do everything that can be done to bring it to an end as soon as the treaty will allow.

Mr. Wiley proceeds in the same strain of gammon, upon the subjects of our "coastwise trade," and the repeal of the fishing bounties. In the same labored manner under the same difficulty as upon the Reciprocity Treaty—for while attempting to deny that the democratic party is in favor of repealing the bounties, he runs against the *fact* that EVERY VOTE BY WHICH THE REPEAL BILL PASSED THE SENATE WAS THROWN BY A DEMOCRAT.

To sum up the letter in few words, Mr. Wiley, attempts a recommend himself to the voters by declaring that *he is opposed to democratic policy*, upon all the points named. This is somewhat extraordinary ground for a *democratic candidate* to take. We don't think the people will perceive any advantage, however, in taking Mr. Wiley rather than Mr. Washburn.

What Said Henry Clay and Daniel Webster?

In a speech in Congress in 1849, Henry Clay said "YOU CANNOT PUT YOUR FINGER ON THE PART OF THE CONSTITUTION WHICH CONVEYS THE RIGHT OR THE POWER TO CARRY SLAVES FROM ONE OF THE STATES OF THE UNION TO ANY TERRITORY OF THE UNITED STATES."

The is what Henry Clay said. JAMES BUCHANAN says, "Slavery exists in Kansas UNDER THE CONSTITUTION OF THE UNITED STATES."

And the central organ of the sham Democracy—the Washington Union—has declared that the introduction of slavery property is "HIGHER THAN ANY CONSTITUTIONAL SANCTION," and that consequently no State even has a right to abolish or prohibit slavery!

Now hear what Daniel Webster said—even since his Seventh of March speech. In a speech delivered at Buffalo, on the 22d of May, 1851, were the following words:

For one, whatever may be said at the Syracuse Convention, or at any other assemblage of men in person, I NEVER WOULD CONSENT, AND PERHAPS I HAVE CONSENTED, THAT THERE SHOULD BE ONE FOOT OF SLAVE TERRITORY BEYOND WHAT THE OLD THIRTEEN STATES HAD at the time of the formation of the Union. *Never, never* The man cannot show his face to me, and say he can prove that I ever deprived from that doctrine. He would sneak away, and slink away, or hire a mercenary pen to cry out "What an apostate from liberty Daniel Webster has become!" But he knows himself to be a hypocrite and a defamer.

Let the admirers of Henry Clay and Daniel Webster ponder the above declaration. Does any such disciple of those glorious old Whig leaders object to modern Republicanism? If he does, let him analyze these bold and glowing sentiments. Has Republicanism ever gone further, or made stronger declarations? Yet professedly conservative Whigs, who have gone over to sham democracy on account of the *abstract* of Republicanism—as Alfred W. Johnson, George Evans, E. Wilder Farley, Abraham Sanborn—read and ponder the words of Clay and Webster,—and then call us "fanatics" and "sectionalists" if you can.

Democratic Decency and Humanity.

Just preceding the late enactment of the law's extreme penalty a Portland, on the two unfortunate criminals, the subjoined article appeared in the Newcastle *Democrat*, the organ of the Democratic party in Lincoln County.—Certainly no such unfeeling and shockingly indecent manifestation could have been made by a member of any other party than that which has signalized itself by the protection of outlaws and murderers in Kansas. We print the heartless effusion merely to show the spirit of reckless ribaldry that seems to animate the Democratic party at this time.

A Nigger to be Hung.

BLACK REPUBLICANS IN MOURNING—CONVENTIONS POSTPONED AND THE PARTY SOUND EN MASSE TO WITNESS THE SPECTACLE!!!

The nigger who is convicted of murdering a male of the brig "Albion Cropper," and is to be hanged for the murder of three other persons in the same brig, is to be hung on the 17th inst., at Auburn, within our Senatorial Districts. Unfortunately for the mourners of this unmanly end, (the Black Republicans) they had called a Senatorial and County Convention, to be called at Worcester on the same day and thus the Delegates would be deprived of the melancholy satisfaction of being at the death. What is to be done?

Nothing short of a postponement of Conventions, and a general attendance of the party to the scene, would satisfy the demands of Niggerdom. No quicker and than done the Conventions are all postponed, and preparations are made for a grand display of sympathy at the old Artisan rascal. The military are to turn out to witness the satisfaction of the black to the laws of the white man. Arrangements are made for shearing sheep and wishing Dead, and the knots of sturdy wool are to be distributed among the faithful, as keepsakes or pins and lockets, and hereafter to be worn, as medals of full-blooded niggerism. We to the illiterate worshiper of wool and wory, who does not secure some keepsake or remind him and his children after him of the journey to Auburn—the Mecca of Black Republicans falsh.

THE SEX VINDICATED. We are glad to see it denied by the Lewiston *Advertiser* that "one-fourth of the crowd at the recent execution were women," as stated by some papers. But very few females were present.

[From the Ellsworth American.]

The Firm of 56 and 76 Lighted Hands Trying the so-called Democratic Party by its Record. A Doughface Impaled. Great Enthusiasm.

Mr. Hamlin spoke at Lord's Hall on Tuesday night, and was welcomed by an enthusiastic wide-awake Ellsworth audience. For more than two hours he held the undivided attention of the whole audience, while he put the bogus Democratic party on trial, and had them convicted, by the largest assemblage ever congregated in Lord's Hall, of a *false dealer*.—The trial was conducted impartially; and the evidence adduced; self confessions were so overwhelmingly against the culprit, that the jury decided the case without leaving their seats. Mr. Richards, the Deputy Collector, undertook to palliate his dubious course—having once written the Hon Senator a congratulatory letter on his triumph over hunkerdom in P's interest County—by pleading that the issues were no the same. Mr. Hamlin replied by stating what the issue was at that time; and the statement was enough to turn the tables on the Deputy. He could find no way of escape; and the audience were amused at his unenviable contortions under the severe trial to which he was subjected.

We doubt, after this, if the public will be daily *disgusted* with the wise talk of this gentleman, about "renegade Democrats," and we are equally certain that the thoughts of the "stake at which John Rogers was burnt" never gave to sensitive children, more fearful impressions of great agony, than will the remembrance, by this gentleman, of the upright and sharp dance, upon which he suffered on Tuesday night, bring to him shuddering thoughts of the fate of a "renegade Democrat."

The points made by Mr Hamlin were well drilled and well elucidated. His hits were excellent and telling, and his sarcasm stinging and effective. We wish every so-called Democrat in the land could have heard him.

Mr. Lebroke was called for, after Mr. Hamlin, and responded in a short speech of much eloquence.

The meeting broke up full of enthusiasm and determination to work and work on.

How the People's Money was Disposed of.

The Age asks the question "shall we have a Democratic State Government?" We think not; the people can't afford a thing so extravagant as that. The administration of Governor Wells paid out to the Land Agent, James Walker, for his ten months' service $4374,—95, when the law specially provides the salary of $1500 a year as full compensation for the services of the Land Agent. This extravagance and waste of the people's money on pet officers would probably be intended to all the departments in case the Buchanan Democracy should again reach power in this State.—The people, we repeat, cannot afford such wanton waste of their money even for so great a luxury as another Democratic administration. This large payment to Walker is a practical demonstration of the democratic theory of economy, and is such as the present administration are carrying out.—*Kennebec Journal.*

The "Woodpecker" Law.

Some of our Democratic cotemporaries are making themselves particularly valiant fully over a law passed by the last Legislature, copied mostly, as before, from a similar law in Massachusetts, for the "preservation of certain useful birds," including starlings, robins, bobolinks and "woodpeckers," exempting them from being maliciously killed between the first day of March and the first day of July. Laws heretofore have been enacted for the protection of fish, moulds, deer, &c., which have been deemed quite proper; by these sages of modern times. But the "woodpeckers," after all, furnish a good "hobby steam," and we are quite amused to see the consummate skill of these rough-and tumble riders. The Lewiston Indies, however, now under the editorial management of our friend Dingman, does not consider it incompatible with democratic orthodoxy to speak a good word for the "woodpeckers," as follows.

"A friend wants to know why we don't pitch into the woodpecker law? He says they bore holes in his apple trees and he wants the privilege of shooting them. Does he know that the woodpecker never bores a hole except to bring out the worms which are gnawing at the root of the apple tree? Wouldn't it be well, before commencing war upon the birds, to allow them to exterminate the insects whose natural enemies they are?"

Bro. Gilman will put descend to the use of scurrility and blackguardism in advocating the cause of Democracy, and his example might be followed with advantage by other members of the press.—*Hallowell Gazette*

THE HORRORS OF THE SLAVE TRADE.—The Key West *Key of the Gulf*, in its account of the capture of the slave brig Pearl, by the U. S. ship Dolphin, relates the following:

"The prize and on board, when taken, about three hundred and thirty Africans, mostly young—none of whom were over thirty-five years of age and there was evident a severed Ethiopian on the voyage. More than seventy-eight of the men, male and female, were in a state of nudity. They were confined to the deck in a sitting posture—spoon fashion.—Originally there were four hundred and seventy taken on board, of which thirteen died hundred and forty and died.

Among the incidents of the capture, we learn that the night before that event, the vessel being within about eighty miles of the port of destination, a grand champagne "blow out" was had on board, in anticipation of soon successfully completing the voyage and figuring the proceeds—of which we are informed each of the crew was to receive nine hundred dollars, and the officers expected to clear one hundred and thirty thousand dollars—but before they had forty time to sleep off the bad effects of their carouse, the Dolphin hove in sight at daylight, much to their surprise and chagrin. Also during the chase, when it was thought by them a ways that their vessel was distancing the Dolphin, they again indulged in champagne, thanking Obatua on to the pursuers, leaning over the rail and bowing and tossing off a bumper in the most approved American-you-wish-you-could-act-the style. But when the last shot was fired, going between her masts, their self assurance and hopes of escape turned to fear and excitement; and when the cap are they expressed great astonishment as to the accuracy of the shot, and asked, what kind of a gun sent a ball that distance?"

ONE MORE UNFORTUNATE.—A woman named Mary Williams, *alias* Bent, jumped off the end of Commercial wharf, about 11 o'clock on Monday night, and was drowned. The body was recovered and taken to the Harbor Police Station. Coroner Mann was called, and summoned a jury of inquest, who yesterday returned a verdict that she came to her death by drowning herself "while in a state of despondency of mind, caused by a life of prostitution and dissipation."—*Boston Courier.*

ROCKPORT. A couple of young scape-graces shaken visited on Tuesday last, with one of S. W. Johnson's best teams, and have no since been heard from. They pretended to belong in North Whitefield, and of course put on honest a pair.—*Hallowell Gazette.*

LOCAL AND MAINE NEWS.

The Democratic "Rally."

The second "*Grand Rally* of the *Democracy at the City Hall*," on Saturday evening, was a second grand failure. The attendance was, if anything, more meagre than at the previous attempt. The number present did not exceed 300, including a very liberal sprinkling of Republicans, drawn in by curiosity. The efforts of the Custom House drummers to get up a "great demonstration" by means of immense posters on the corners of the streets, daily calls through the "Union," in huge black capitals, long and loud bell-ringing, and the most vigorous performances of "McGuire's Band," were all without avail. The gathering might have been considered respectable for a Ward caucus—but that is all.

We dropped in for a few moments, soon after 8 o'clock, and found the hall for about half filled with people, listening occasionally to a respectable speech from Mr. George W. Bradley "of Minnesota." We did not remain long enough to get fairly hold of the thread of his remarks,—but we judged from a few sentences, that he was defending the Lecomptonism of the administration—the audience all the while maintaining a desperate silence. As the Republican cause didn't appear to be in any great danger from the "democratic," and we had business elsewhere, we didn't stop to hear the other distinguished speakers who had been announced—Abraham Sanborn and Marcellus Emery, Esqrs. If the house continued to empty as fast as when we left, we fear our friend Emery was applauded only by the echo, if at all.

The Penobscot Teachers' Institute.

The following was received too late for Saturday's paper. We have another article upon the same subject, which is anticipated by this:

HAMPDEN, Sept. 3, 1858.

Messrs Editors —The Teachers' Convention, which has been held in this place during the present week, closed its session to-day. The pleasant weather and the ample accommodations for board have secured a large attendance of teachers of Common Schools, and the Convention has in all respects been an eminently successful one. We doubt not that every one of the many teachers who have during the week listened to the faithful and practical instruction and advice of our able State Superintendent and the Board of Instructors, will return to his or her field of labor with renewed energy as well as greater capacity for the work. Mr. Dunnell has been fortunate in his selection of Instructors. Professors Chadbourne and Brickett are not only gentlemen of high attainments but practical and successful teachers—devoted, mind and heart, to the business in which they are engaged.

The system of Teachers' Conventions, as now carried out by our Superintendent of Common Schools, must be productive of great good to the educational interests of our State. By their means, teachers are *brought together*, and an *esprit du corps*, or professional pride is generated, which can never exist among those engaged in a similar work, but in separate fields of labor, *without* these reunions. In this way alone, much good results from Teachers' Conventions; but when men eminent and experienced in the business of education, are also brought in to add their counsel and teachings, we think a still greater amount of good must accrue to the community.

As one engaged in the laborious but highly important business of teaching, we must express great satisfaction in being permitted to enjoy the advantages afforded us during the present week. We feel benefitted by them, and through us we expect the public to be benefitted. We congratulate the State on having placed the superintendence of its Common Schools in so able hands as those of Mr. Dunnell, and we feel confident that it could be intrusted to none more able and indefatigable. Yours, A TEACHER.

REPRESENTATIVE NOMINATIONS. In the Trenton District, Rev. H. C Estes has been put in nomination by the Republicans.

In the Gouldsboro District, Asa Cole Esq., is the nominee.

The Republicans of the 3 classed towns of Eden, Mt Desert, Tremont, Cranberry Isles and Seaville have nominated John H. Parker, Esq., of Mt. Desert. These are all excellent nominations.

The month of August, it seems, has been warmer this year than last. The Brunswick Telegraph says that the average temperature for August, 1858, was 67 deg.; for August, 1857, 64 deg.

We call attention to the advertisement of Mr. O. J. Stone, in another column. We understand that he is thoroughly acquainted with his business, and will attend with promptness to all orders.

The admirers of the Fine Arts are invited to look at the advertisement of Free Oil Paintings on exhibition, and then to call and examine the pictures.

CONTINUED EMIGRATION TO ARROOSTOOK.—Joel Moor, of Gouldsboro, and James Mead, of Bartlett, N. H., with two sons, passed thro' the city on Friday last, with the intention of procuring lots for themselves, and others now in New Hampshire.

GREAT FALLS OF RAIN. The Brunswick Telegraph, in speaking of the great fall of rain on Saturday, the 28th of August, says:

The amount was four inches and ninety one-hundredths, which fell in nine hours.—Looking over the Meteorological Journal, we find that on June 12, 1812, were recorded four inches and ninety-five hundredths; Sept. 1st, 1841, four inches and seventy-five hundredths; Dec. 22, 1842, four inches and ninety-eight hundredths; Aug. 10, 1843, seven inches and seven-tenths, most of which fell in a shower from 6 30 P. M. to 3 A. M., which was 9½ hours—the amount being the greatest per hour on record; July 3, 1845, five inches and seven-tenths; Nov. 5, eight inches and twenty-five hundredths; 9th, four inches and seventy-three hundredths; May 6, 1850, five inches and five-tenths; April 22, 1852, five inches and eight-tenths. The most rain recorded as falling in one month, was in May, 1814, being eleven inches and forty one hundredths, making the rise in the Androscoggin unprecedented and productive of much damage. The amount of rain, including melted snow, which fell, from Jan. 1 to Sept. 1, 1858, was thirty inches and eighty-four hundredths. The annual average amount is about forty inches, or a little less.

Mt. Vernon Association of the Union.

By a recent appointment of Miss Cunningham, Regent of the "Mount Vernon Association of the Union," a Vice Regent for Maine has been selected, whose privilege it is to present the object involved in this Association to the citizens of Maine, and the claim urged upon them by the noble example of these patriotic women who have so faithfully labored to accomplish the work of making the Home and Grave of Washington a National possession.

As the Vice Regent believes that the object itself must appeal more eloquently to every American heart, than any words, she wishes simply to make such a statement of facts as will place the subject before the people, feeling confident that in the combined action of the States, the co-operation of Maine will not be wanting.

The splendid result which was contemplated in the formation of this association of ladies is now so nearly realized, that there scarcely remains a chance of failure.

The purchase of this spot hallowed by such patriotic and grateful associations has been made. A contract conferring the property to the Mt Vernon Association was signed on the 6th of April, 1858. It includes the Home and Tomb of Washington, the Landing upon the Potomac, and two hundred acres of land. A charter has been granted by the Virginia Legislature, and the possession is secured to the Mt. Vernon Association forever.

Through the earnest efforts of the Association, the generous response to its appeals, and the admirable devotion of Mr. Everett, the first payment of eighteen thousand dollars has been made, and there are funds to the amount of fifty-seven thousand dollars ready to meet the next demand in January 1859. For the remainder of the purchase money the Association relies upon the liberality of individuals. It is ardently desired that a common interest should connect the citizens of the whole Union, and the subscription requisite for membership is placed at the moderate sum of one dollar for adults, and fifty cents for children, in order that all may have the privilege of sharing in this national undertaking.

The names of all subscribers will be published, and afterwards recorded in the "Purchase Book," at Mount Vernon, in testimony of the faithful appreciation of the nation.

The organization of the Association consists of a Regent, and a Treasurer, a Vice Regent for each State, and the necessary local Agents.—The Regent appoints the Vice Regents. These for most of the Southern States have been appointed long since, and the people of the South have responded liberally to their appeals.

The Northern States have but just commenced any systematic action. In New York and Massachusetts, very ample organizations have been planned, in order to accomplish favorably their part of the work.

The Vice Regent of Maine anticipates as full and prompt an answer to her call, hoping that the smallness of the sum demanded of each individual will be balanced by the number of subscribers.

It is hoped in these extended arrangements, that a fund may be raised sufficiently large to admit the restoration and maintenance of the property in fitness and beauty, and that in due time, by an honorous action of the whole Union, the States may hold in united and friendly possession the beautiful and ornamented home and grave of Washington.

So far the services of all the agents have been gratuitous. Many liberal donations have already been received, and a warm interest has been manifested wherever the subject has been presented.

The Vice Regent of Maine trusts that this sample sketch of the object and progress of the work will be sufficient to answer the end proposed, and that Maine will gladly do her part in this worthy memorial of a nation's gratitude.

ABBA ISABELLA LITTLE,
Vice Regent of Mt Vernon Association for Maine.

MARGARET J. M. SWEAT,
Secretary

ADVISORY COMMITTEE:

Mrs. John Mussey, Mrs A. W. Clapp, Mrs John B. Brown, Mrs Charles Jones, Mrs Albus Rea, Mrs Moses McDonald, Miss Mary Bartol, Miss Anna Evans; Hon Charles S. Davies, Hon. George Evans, Hon Nathan Clifford, Hon. William P. Fessenden, Hon. Phineas Barnes, Rev. Horatio Stebbins, Rev. Alexander Burgess, John Neal Esq.

ISRAEL RICHARDSON, Esq., *Treasurer.*

It is not, perhaps, generally known that the effort to purchase Mount Vernon was ushered at first to the ladies of the South exclusively, and that it was found impossible to accomplish it. More than half the purchase money remains to be raised; but we doubt not that with the exertions now being made, New England, alone, will contribute one-half of the whole sum.

If one in sixty of the inhabitants of the Union will give one dollar for the work, it will be accomplished. We are sure that the North will do much more than that—that Maine will do more; and that Bangor will not do less than the other cities of Maine in this patriotic and public spirited work.

The Free Masons of our country contribute liberally towards this tribute of love and reverence for Washington—the highest ornament of the Masonic Order.

Odd Fellows, too, are helping to achieve the desired end. Express Companies frank the packages of the Mt Vernon Association—the Press exude liberally its necessary and helping hand. Public schools in different parts of the country have contributed to the cause.

Military and Engine Companies who are sustained and made efficient in this country, by the public spirit and the patriotism of their own hearts, respond liberally to the call when the Mt. Vernon Assoc tion makes upon their generosity.

Last April, the Consta uloh was so amended that gentlemen could become members, although the management and labor of the Association was, and still is chiefly confined to ladies.

The plan of placing the name of every subscriber in the Mt. Vernon Purchase Book, will make a record, which though not very important to us now, may be looked upon with much interest by our children's children. Parents who thus place their own and their children's names—both the living and the dead—there, make a family record, likely to be better preserved, and more easily accessible in the future, than any other to their power; for the grounds of Mount Vernon, in the design of the Mt. Vernon Association is completed, will be open to, and owned by every son and daughter of the Republic, nor could dissension itself prevent this privilege of ownership, in all the children of the now existing nation. How long this nation may exist as it is now, man may not foretel; but while politics and legislation embitter the different portions of our Union, it is well, perhaps, to remember that there is one interest, one pride, and one glory in which we have a common share,—the love and reverence of Washington; and in this effort to give his home and tomb to the nation, we will feel only that he belongs to us all.

The cause of obtaining subscriptions in Penobscot County, has been committed by the Vice Regent of Maine, to a lady of this city, who will shortly forward subscription papers, with the appeal of the Vice Regent, to some lady of influence in each town of the County. It is believed that Penobscot will do its duty in this matter, and the report from each town will be made public in due time. Which shall be the *banner town?*

Ladies and gentlemen of this city, who will, without being personally solicited, send their names and subscription to the agent of the Mt. Vernon Association, for Penobscot County, will confer a great favor, and essentially lighten labors which must of necessity be arduous, as a little reflection will show.

HENRIETTA C. INGERSOLL,
Agent of the Mt. Vernon Association for Penobscot County.

RESULTS OF NOT TAKING THE PAPERS.—The Rockville Republican tells of a man living near Stafford, Ct., who had actually never heard of the Atlantic Telegraph. Hearing the bells all ring in Stafford, he saddled up and rode to town post haste to see what was the matter, and when informed that the cable was laid, he wanted to know what cable, and said he had never heard of the thing, and did not understand it.

The consumption of coffee in this country is eight times greater than that of Great Britain.

To all who suffer from weakness and debility, we say, try the Oxygenated Bitters—a medicine which contains no alcohol, and has cured the worst cases of Dyspepsia, Asthma, and all derangements of the stomach

Culpable Negligence We believe that in most cases where coughs end in Consumption, a timely resort to some potent yet simple remedy, like Wistar's Balsam of Wild Cherry, would have saved the life and health of the patient.

The Riot on Staten Island.—The accounts

of the mob on the Quarantine establishment, on Staten Island, state the number engaged in the affair from four hundred to a thousand.—The buildings destroyed consisted of eight sheds, 300 by 25 feet long, the large small-pox hospital, 80 by 70 feet, the St Nicholas, 150 by 60 feet and three stories high, Dr. Thompson's residence, a handsome three-story house, and a large number of out-houses, sheds, &c. In fact only one large building remained standing.

The New York Post says that the officer has rendered himself excessively and universally unpopular among all classes of inhabitants on the Island by his malfeasance, and among the shipping classes by his extortions. Only a few weeks since, he outraged the feelings of the most conservative inhabitants, by opening the gate of the hospital at night to discharge the Lorelei, a lighter, all infected, as they must have been by their exposure among the sick during the day, to assist him in attending a political meeting, thus perilling the health of the whole Island.

But the immediate cause of the outbreak is stated thus:

"The recent spread of yellow fever outside of the Quarantine walls, the excitement growing out of it, the regulation respecting the stoppage of the ferry-boats from running their landings at the Quarantine dock, (made for the purpose of allaying excitement,) the passage by the Castleton Board of Health, on Thursday, of a series of ordinances striking directly at the efficiency of the administration of quarantine affairs and the support of it by the New York Commissioners of Health for an injunction to restrain the wardens from interference with the Health Officer and his prerogatives, has thus, we see, resulted in actual, open war."

It appears that the demonstration was made by the advice and with the personal co-operation of the Board of Health of Castleton, and of the most prominent citizens of the Island.

A meeting of the citizens was held on Wednesday, at 1 P. M., which was presided over by respectable gentlemen, and the following resolutions passed nemine:

Resolved, That the Whole quarantine establishment, located as it is in the midst of a dense population, has become a pest and a nuisance of the most serious character, bringing death and desolation to the very doors of the people of the towns of Castleton and Southfield.

Resolved, That it is a nuisance too intolerable to be borne by the citizens of these towns any longer.

Resolved, That the board recommend the citizens of this county to protect themselves by abating this abominable nuisance without delay."

Fire.—The house, barn, &c., owned by Mr.

M. Mooney Weeks, in Chelsea, (Me.) were burned to the ground on Tuesday evening last. We learn that the fire took in the barn. Cause not clearly ascertained. The property was partially insured.

Potatoes have been selling at Brunswick for 25 cents per bushel, farmers fearing the rot.

AUCTION SALE!

☞The Fine Arts!

Signor G. B. Pandolfini & Co,

FROM ITALY,

Advise the Ladies and Gentlemen of Bangor and the vicinity, that they will dispose,

☞AT AUCTION,

On THURSDAY and FRIDAY, September 9th and 10th, at 10 o'clock A. M. and 2 o'clock P. M., at the lower Store in Lewis' Block, Main Street, opposite J. C. White's store, (which has been particularly arranged for the accommodation of ladies—

The most magnificent collection of altogether new designs of Italian Marble, Alabaster and Agate Statuary, &c. also, the latest styles of Bohemian decorated and engraved Glass Ware, French China Ware, solid Rosewood Work Boxes and Writing Desks, English Toilet Ware, Fancy Articles, &c., &c.

In this superb collection may be found many articles of beautiful design and workmanship, many of which are original pieces, and therefore perfectly unique, such as the Classical Babe, Roman, Grecian, Napolitan, and other well known forms of Vases.

Two Splendid Florentine Mosaic Centre Tables.

The above goods have just arrived from Europe, and have been selected with great care by Signor Pandolfini, from the great studios of Italy, and the royal manufactories of Prague and Vienna. These goods have never been offered in any other market, and every article will be sold without the least reserve.

It is confidently believed that the tasteful, the curious and economical have not had so desirable an opportunity of obtaining articles of elegance, ornament and utility.

The Goods will be open for free examination on Wednesday, Sept. 8th.

Ladies and gentlemen are invited to call and examine the above

Beautiful and Select Assortment,

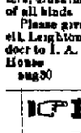
and attend the sale. Catalogues will be ready on the morning of the day of sale

Goods purchased for transient will be packed in the original Italian packages, at a small expense

R. B PRESCOTT, Auctioneer.

Bangor, Sept 1, 1858

FOR SALE,



A valuable Mill and Lumbering privilege at St George, New Brunswick, consisting of a new Gang Mill, with all the modern improvements; a new Dwelling House and Barn, Store, and other buildings, and a Farm cutting about fifteen tons of hay, in addition to which, and immediately adjoining the Mill, this property embraces about nine thousand four hundred acres of wild-timber land, in one block, well covered with Pine, Spruce, Hemlock, Cedar and Hardwood, through which runs a chain of lakes and a stream furnishing an abundant supply of water for driving and sawing purposes. On the property is interval land, which can be made to produce one hundred tons of hay at a trifling cost. The lakes extend into a very large and well timbered tract of Government land

This desirable property is on Lake Utopia, within six miles of the village of Magaguadavic, and it presents a rare opportunity for a person wishing to carry on the lumbering business for the European or American markets. The present owners residing in England are disposed to sell the property at a reasonable price.

For further information apply to JOS. GRANGER, Esq., Calais, Maine, or to A. J. WETMORE, at George, New Brunswick.

Hitchcock's Combination Suction and Force Pump!

FOR SALE, a new kind of PUMP—suction and force—different from any thing now in use, for durability, &c. You can draw water from a deep well and force it to any part of your buildings at the same time, in case of fire or any other exigency. You can have it with or without the forcing part. Any person with a jack-knife, can do all the repairing that it will need for twenty years, as it will not get out of order and is not liable to freeze up like other Pumps. It has received the first premiums at four State fairs, and numerous county fairs.

It may be examined at the Tin Shop of F. H. MILLS, Exchange street, Bangor, where I shall remain for a few weeks. Town rights for sale.

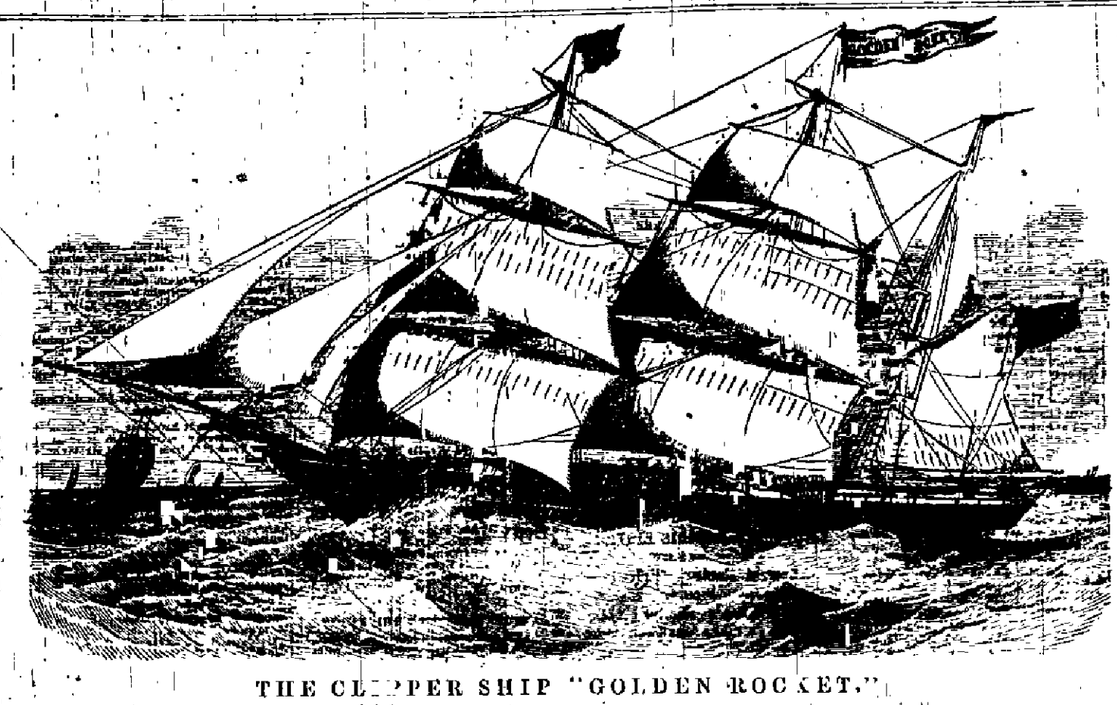
HISTORY OF THE TOWN OF MASON, N. H., from the first grant, in 1749, to the year 1858, by John H. Hill. For sale by

may28 CHARLES HIGHT.



THE CLIPPER SHIP "GOLDEN ROCKET,"

Of 600 Tons, now on the stocks in Messrs. Cooman's Ship Yard, will be constructed expressly for a Packet, to run between Bangor and San Francisco, and will leave Bangor for that place about the middle of October next. It is confidently expected the Golden Rocket will make one of the quickest passages ever made from this State—as she will be commanded by one of the most experienced Ship Masters, who has already made three voyages to that place. The Golden Rocket will take out a small quantity of heavy freight in her lower hold, which will put her in perfect ballast or sailing trim (a part of the freight being already engaged.) She will have a saloon "between decks," and houses on deck, fitted up expressly for women and children, with a large complement of female servants expressly to look after their wants—which arrangement will give those wishing to forward their wives or children to California an opportunity never before offered. Women who are obliged to labor for a subsistence, and who would wish to seek a home on the golden shores of California, where their services are better appreciated and better paid for than any other place on the globe, will find this a better opportunity than ever before offered to the United States—more especially as the accommodations they will have for the price they pay. There will be several commodious Cabins in the ship, and families or ladies desiring extra accommodations, will be furnished with State Rooms, &c., equal to those in first class steamers. Quite a large number of passages have already been engaged for men, women and children. The ship leaving here in the fall, will bring her off Cape Horn in midsummer, which will make the trip a pleasant one—and arriving in San Francisco about the first of February, the time when mining operations commence, will meet the wishes of a large number of those bound to the shores of California. Those wishing to write to their friends in California, and get returned, will have ample time between this date and the time the ship sails. The Golden Rocket will touch at Rio and Valparaiso on her passage out. Those wishing to remit some or a part of their Passage or Freight Money, can have it by giving satisfactory security.

Passage $150. For Freight or Passage, apply to

American Safety Paper

Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper, in America, invented and patented in England by ISAAC GLYNN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Dr. Lyman of the New York Clearing House, and Messrs. Brothers, Stenaire and skillful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—35 cts. per lb.
Bank-Bills—$1[1]2 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—60 cts. per lb
Sight and Time Drafts—$25 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per l b
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb.

For Indentures and Agreements, 40 cts a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other, as the moistness of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall street, New York.

American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington under the Act of 1837,)

70 State St., opposite Kilby St.,

BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also, in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made here to American or foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, of ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE, than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. ELIAS MASON,

Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,

Late Commissioner of Patents.

Chicago, Illinois, February, 1854.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. Such unmistakable proof of persistent and ability to succeed, I have no hesitation in recommending to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, at the very lowest charges. JOHN TAGGERT."

From Sept. 17 to 1857, to June 17th, 1858, the subscriber, in course of his large practice, made on rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

THE LIVER

NV[illegible]

PREPARED BY DR. SANFORD,

Compounded entirely from Gums,

IS ONE OF THE BEST PURGATIVE AND Liver Medicines now before the public.

These Gums restore all morbid or inflammatory action of the system, supplying in their places a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving tone, and health to the whole machinery, removing the cause of the disease—of feeling a radical cure.

Bilious attacks are cured, and what is better prevented, by the occasional use of the Liver Invigorator.

One dose often relieves Costiveness.

One dose often repeated, cures Chronic Costiveness in the worst forms.

One dose after eating is sufficient to restore the stomach and prevent the food from rising and souring.

Only one dose taken before retiring prevents Nightmare.

Only one dose taken at night cures the bowels remedy, and cures for Summer Complaint.

A few bottles will cure Dropsy by exciting the absorbents.

We take pleasure in recommending the medicine as a preventive for *Fever and Ague, Chill Fever, and all Fevers of a Bilious type.* It operates with certainty, and those who are afflicted, and those who are willing to test it, will find it a wonderful writer.

Only one dose immediately relieves Colic, while

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

Price One Dollar per Bottle.
